Our Views about HR and Talent

People is one of the important assets to the company. One of the key focus in the HR department is to train and develop our employees to be the future leaders.

There is no one-size-fits-all method, hence, we will identify the strength of each employee and customised the training plan to improve the performance gap. We believe that employee development and engagement are integral to achieve our sustainability goals.

Student's Feedback

The internship experience has been a great platform for me to gain deeper insights into the sector. I am thankful to have patient and helpful mentors who guided me when I faced challenges. I am able to gain greater knowledge and experience on the job which are unattainable through the course of study.

How have we collaborated with IHLs

We established alliance with different IHLs to get young local talents for us to mentor and develop career in the retail industry. We have hired interns for different functions such as retail sales, accounts, merchandising and marketing. We have also experience participating on campus job fairs and able to engage with more students. This is a great programme and we will continue to support and collaborate with different IHLs.
