

## Omnidesk™

### **About us**

Omnidesk™ was founded with a free-spirited and an ambitious objective: to offer height adjustable standing desks at a revolutionary price, while leading the way for healthy-lifestyle conscious businesses. Our vision of the Omnidesk™ is that of a fully modular platform, packed with features and accessories that will allow you to customize your desk with tools to create a perfect setup that is ideal just for you. Our straightforward mission: Bringing quality and affordable customisable ergonomics to the masses.

### **Our Views on HR**

Through our on-job training, new employees will be involved in a dynamic start-up environment, allowing them to be exposed to various scopes such as operations, marketing and mass communications.

### **Student's Feedback**

Students have provided feedback to us that they had grown a lot during the internship period, exposing them to the real SME working environment and culture. Having their internship here not only helped them gain experience, but also utilised their creatively and innovative thinking.

### **Collaborations with IHLs**

We have engaged students from the range of IHLs who are in courses such as graphic designs / logistics management / engineering to learn our business process. We hope that with these collaborations, we will be able to pave ways for the future generations to propel Singapore to greater heights. Tasks are tailored to their interest, skill sets and comfort level to ensure that they will be able to make full use of their time here!
