

One Gallery

About us

We design merchandise to evoke sentiments of travelers when they take a piece of Singapore with them. We incorporate all aspects of Singapore art and culture : Food, Architecture, Language, Quotes. We believe in design, and we strive to design products that spark, unique and practical.

Our Views on HR

We believe in doing something creative every day. Passion and profession goes hand in hand. Share your creativity and we need YOU.

Student's Feedback

We enjoyed our internship at One Gallery as our ideas, inspiration, creativity and designs are turned into merchandise, leaving a footprint in the world market place. For examples, merchandises designed by us are sold at Singapore Tourist attractions and Changi Jewel.

Collaborations with IHLs

We believe in working together with IHL, students whom are keen to be their own boss or entrepreneur to see for themselves how the business mechanics works. Or to join us full-time when they graduate, and groom to be professional managers to bring the business growth regionally and globally. This is the 3rd batches of TP business and design students, they definitely have made a significant contribution in our business.
