

X-Boundaries

About us

X-Boundaries was started in 2002 by people who were passionate about traveling. Today, X-Boundaries is a dedicated one-stop travel store selling everything you will need for your trip.

Our Views on HR

We have an in-house training plan developed in-house based on real on-hand experience. We welcome new blood to contribute new ideas into the training plan.

Student's Feedback

"I would like to thank RP for giving me this opportunity to work at X-Boundaries and the people I got to work with. I enjoyed working at X-Boundaries as my colleagues are very friendly and helpful. They were willing to help me whenever I am facing difficulties and also impart knowledge that will be useful for me in the workforce. I have learnt quite a handful of things throughout this 5 months' internship from product knowledge to e-commerce to handling customers just to name a few."

Collaborations with IHLs

We have open door policy for the Intern and the Intern Supervisor to contact us anytime they prefer to improve on our programme.
