

About US

Established since 1996, PC Man is an IT Solutions Provider in data recovery, computer repair, corporate IT services and social media and web services. It has now evolved to being an efficiently sized team with management staff and engineers specializing in various aspects of computer hardware, software and networking, and has taken on various small scale and big projects alike.

Our Views About HR & Talent

We believe that we are only as successful as the people who make up the organization – as such, we focus very much nurturing staff and talent, and this is an ongoing process for us.

Students' Feedback

Students who interned with us felt the internship was effective as all-rounded training was provided, and stretching even beyond the usual job scope.

How have we collaborated with IHLs

Through the SME Talent Programme, we have worked with interns from the Diploma in Electronic & Computer Engineering of Ngee Ann Polytechnic to provide a robust internship complementing what they have learnt in school.
